SUMMER FINALLY HERE...What is on the Summer Schedule?

Ian Goodwin

Lotus Lake

Here is a news flash for all you ladies " said baby-faced college freshman, Ian "Goody" Goodwin, "This summer will be a 'rockin and the epicenter is where I'm standing."

In a related story, many royal watchers have pegged Ian as the cause of the recent break-up of Pippa Middleton and Alex Loudon but Ian refuses to confirm or deny any involvement. "Pippa is a sweet gal and while Alex is a real tool, I have set my sights on the idyllic campus of the University of Minnesota as my real love. And my course of study? It will likely be complex accounting or logistics; and that is just to manage my social calendar."

Colleen Johnson

Minnesota City

"Well, the first thing on the list is that I am putting the band back together. I got a hold of the boys and told them that it was time for a summer tour. I will send Steve to a car show for a few months, he will not be an issue. Now, where did I put my tamborine?"

Colleen fronted several bands in the 1970's but was probably best known as the lead singer of Grand Funk Railroad. Colleen and her bandmates were both famous and infamous for trashing hotel rooms and breaking hearts across Europe and North America and the report of a possible reunion tour has caused increased activity with both ticket brokers and personal injury attorneys.

John McGrory

Van Cleve Park

"This summer has been focused on perfecting my contemplative look. My uncle tells me that chicks dig the mysterious guy...the one that ponders life's great mysteries, hangs around coffee shops, wearing a beret and looking pensive and vulnerable.

So, anyhoo, my junior year should be an interesting one which will begin with my new facial expression for the fall academic year: Pale Steel."

Andrew McGrory

Whereabouts Unknown

"As a recent high school graduate, I want to stay focused on the skills that made me what I am today: restless and hungry."

So, what is on the summer docket?

"Completing my college reading assignments neatly AND early. I want Mrs. Bottke to regret ranking me #3." - Joanie Boysen
